

CAPACITY ALLOCATION MECHANISM (CAM)
MARKET DEMAND ASSESSMENT
FOR
INCREMENTAL CAPACITY AT INTERCONNECTION POINTS

16th September 2021

Dear Industry Colleague,

In accordance with UNC European Interconnection Document (EID) section E 2.1.1.1 (Biennial Process), interested parties were invited to submit demand indications for Interconnection Points to National Grid NTS for a window period of 8 weeks, starting from 5th July 2021.

The CAM Incremental Capacity window for demand indications at Interconnector Points closed on 30th August 2021. National Grid received no responses to the consultation and therefore no Demand Indications. We will be producing Market Demand Assessment Reports jointly with each IP operator and will publish these on our website by the deadline of 25th October 2021.

If you have any questions concerning the above, please contact Belinda Agnew using the details below.
